## LOCAL MISCELLANY.

WAGES OF CITY LABORERS. OBABILITY THAT THE REDUCTION WILL BE SUS-

TAINED. Aldermen Purroy, Seery, Shandley, and Reilly, four out of the five members of the Aldermanic Com-mittee appointed to consult with the heads of departments of the City Government in regard to the reduction of laborers' wages, met at noon yesterday and visited the various departments. None of the Commissioners were seen, however, except Commissioners Wales and Westervelt of the Dock Department, who expressed elves in favor of allowing the laborers to work ten ours a day at the reduced rate of 20 cents per hour.

Later in the day a meeting of the Commissioners of the various departments was held at the office of Comoner Porter, in the City Hall. Commissioners Dis becker and Matsell of the Pelice Department, Stebbins of the Park Department, Wales and Dimock of the Dock Department, and Commissioner Porter were present, with the members of the Aldermanic Committee. The Commissioners were asked to give their views on the Department, and Commissioner Porter were present, with the members of the Aldermanie Committee. The Commissioners were asked to give their views on this question. Commissioner Porter said it was hardly fair to press them to a definite answer, as the Commissioners were in session on his invitation. Commissioner Disbecker and that the whole matter had been passed upon at a meeting of the heads of departments, presided ever by Mayor Wickham, and that all, including the Mayor, had voted in favor of the reduction. Commissioner Stebbins said that in the Park Department Commissioners Donohue and Martin had opposed the reduction, and that, consequently, no change could be made in that department. Commissioners Porter and Disbecker both said that they could obtain housands of men, ready and willing to work, at the rate of 20 cents per hour. The commissioners said that they would hold another session in regard to the matter, and they desired the Committee to withhold their report until ther that session. They were generally of the opinion, Committee then called on Mayor Wickham, with whom they held a long consultation. The Mayor said that he would give the laborers an opportunity to work ten hours per day instead of eight, as heretofore, and thus make \$2 per day. He denied having voted to reduce the wages of laborers, saying that he had presided at the meeting, but had not voted. The whole mamber of laborers camployed by the city is about 2.500, 1,700 being at work in the De-partment of Public Works.

### NEW POLICE ARRANGEMENTS. TREET DUT TO BE DUMPED IN THE OCEAN-PROPO-

SITION INTRODUCED BY COMMISSIONER SMITH TO DIVIDE THE CITY INTO FOUR POLICE DIS-

The Board of Police Commissioners held their regular meeting vesterday, President Matsell in the chair. It was resolved that the street refuse should, unless approved by the Board of Health as suitable for filling in sunken lots, be taken to sea and discharged there, doner Smith stated that Police Surgeon Fetter reported that he found that the first layer of the material used for filling the Harlem flats consisted mainly of garbage. Commissioner Voorbis said that Dr. Fetter had signed the report of the Beard of Surgeons, in which the character of the material used for filling the lots was not properly shown. Dr. Fetter was ordered to appear before the Board to-day to make some explanations of his

Commissioner Smith offered a number of amendments les and Discipline. Under the new arrangements the city is to be divided into four districts. Each district is to be under the command of an inspector. The captains in each district are to make their daily reports to the inspector of their district instead of reporting to the Superintendent at the Police Central Office, as at present. Each inspector is to have an office in his district, which is to be the district headquarters. The inspectors are to make a consolidated report to the Board of Police. All squads and officers not attached to any precluct are to be unfor the immediate charge of the Superintendent. Two captains and two sergeants are to be detailed for duty in the office of the Superintendent. One captain and two sergeants are to be detailed for duty in the office of the Superintendent. This will give the inspectors more immediate supervision of the district under their charge, and will materially change the routine of police work. The opinion of the counsel to the Board, relative to the power and duties of the Board to enforce an ordinance in relation to obstructions of streets, was received and placed on file. It was voted that the counsel be instructed to prepare the draft of an ordinance in accordance with his opinion, applicable to the cases of street obstructions, and that the same, if approved by the Board, be transmitted to the Mayor, that he hasy have the same enacted by the Common Council. to be under the command of an inspector. #### AN ARMY OFFICER'S SUICIDE. DEATH OF CAPT. WILLIAM BROWN BY CUTTING HIS THROAT-UNSUCCESSFUL ATTEMPTS TO SAVE HIS

Capt. William H. Brown of the United States Army committed saicide yesterday at No. 21 West Tweneventh-st. On Thursday evening it was noticed by Capt. Brown's friends that he was suffering from such severe mental depression that it amounted almost to melancholia. Still, little was thought of it, but all his friends emicavored to cheer him. Yeaterday about 3 p. m., Col. W. G. Rankin went to the door of Capt. Brown's room and kneeked. A voice called, "Come in." Entering. Col. Rankin saw Capt. Brown lying upon the floor in the od which was flowing profusely from a wound in his razors and a strop lay near by. Capt. Brown recognized Cot. Rankin, and painfully said, "It's all over with me. There is no use in sending for a doctor. My race is run." The wound had been inflicted with a large razor. The troches had been severed partially, and the jurular vein on one side was divided. Capt. From large razor. The troches had been severed partially, and the jurular vein on one side was divided. Capt. Brown was raised upon the bed, and such means as were at based were employed to check the flow of blood, until a surgeon could arrive. Dr. Hoff came soon afterward and secured the divided blood vessels. Several sitches were taken and Dr. Hoff informed the friends that he had done everything possible to nesist Capt. Brown's recovery. A large amount of blood had been lost, but being only 30 years of age, it was hoped that he might raily.

In his agony he burst the ligatures that secured the divided blood vessels, and in a few moments was dead. Capt. Brown served with distinction in the late war. He was several times promoted for bravery, and was beloved and respected by his comrades and acquantances. Before he died, he spoke of a ring that he had swallowed and said that he washed to have it recovered, it is believed that this ring belonged to some lady to whom he had been affirmed.

#### AN OCEAN STEAMER RUNS ASHORE. THE STEINMANN FROM NEW-YORK GROUNDS AT THE ISLE OF WIGHT, BUT GETS OFF WITHOUT A DIS-

Telegraphic dispatches were received in this sity yesterday that the steamship Steinmann, while on voyage to Antwerp, from this city, which she left on May 19, went ashore early yesterday morning, in a dense fog, on the 1ste of Wight. Later dispatches stated that the vessel was running at builf speed at the time, and although soundings were taken every minutes, the captain had no idea the steamer was so near shore when she struck. Fortunately she went on at a sandy place; the tide was low, and hardly any sea was running, and by throwing over a small portion of the cargo and keeping the engines in reverse motion, at high tide the vessel got off without any damage and peded on her way. The excitement usual upon such occasions prevailed among the passengers, but the securance of the captain that the vessel would get off restored confidence and prevented a panie. It is considered very fortunate that there was only a light sea running, and that the Steinmann did not ground at high tide, as the ceast is looked upon as very dangerous, abounding in rocks and having only few sandy places, and many vessels have been lost in the vicinity. The

These matters eccupied the attention of the Convention a greater portion of the afternoon. Apart from this the principal feature of the session was the presentation to the body of a memorial prepared by the Conference of New Church ministers on the special needs of the Church, a discussion of which will occupy the opening hour of the afternoon session to day. In the evening a general conference on the State of the Church was held.

The onvention yesterday was attended by 42 ministers and 176 lay delegates. Among the prominent members were the Hon. Theophilus Parsons of Cambridge, the Rev. J. R. Hibbard of Chicago, the Rev. W. B. Hayden of Portland, Sampson Reed, F. A. Dewson, and R. M. Puisifer of Boston, W. H. Benade of Pittsburgh, the Rev. John Doughty of California, and Nathan Hobard of this city.

### A NEW COLLEGE LIBRARY. DEDICATION OF THE BUILDING GIVEN BY GARDNER A. SAGE TO THE THEOLOGICAL SEMINARY AT

NEW-BRUNSWICK, N. J. The dedication of the Sage Library, connected with the General Theological Seminary, at New-Brunswick, N. J., took place yesterday afternoon. The building is situated west of the Peter Hertzog Hall, and is similar in size and appearance to the gymnasium which has been erected east of the Hall, by James Suydam, now deceased. It is a two-story, fire-proof building of red brick and stone trimmings. The main entrance leads to the reading-room, on each side of which are seven alcoves. An iron and stone staircase leads to side. The building has occupied more than two years in its construction. It was thrown open on Dec. 2, 1874, and is intended not only for the use of the students of the Theological Seminary, but also for the students of Rutrecongent Semmary, our also for the students of Rus-gers College, and, under certain restrictions, for the resi-dents of New-Brunswick. The building has been con-structed under the personal supervision of the donor, Col. Sage, and has cost \$25,000. It contains about 25,000 volumes, mostly of sacred literature, with many works in ancient languages.

## LONG BRANCH INCIDENTS.

ARRIVAL OF THE PRESIDENT-PREPARATIONS AT THE HOTELS AND RACE-TRACK-A GAY SEASON ANTI-

CIPATED. President Grant and Mrs. Grant, Mr. and Mrs. Sartoris, and Gen. Babcock arrived at Long Branch Thursday evening. The President looks hale and strong. Gen. Babcock, who is at the Branch without assistance, has his hands full attending to the three mails per day that reach him for the President, and he attends to all matters that require immediate disposition.

The hotels are just putting on the last coat of paint preparatory to the opening, which is to be quite general within a few days. The propeletors of the West End and Ocean hotels both declare that they have more rooms en-Ocean hotels both declare that they have more rooms engaged at this time than they have had in the first week of June in any previous year. All persons at the Branch are satisfied that the season will be extremely gay and animated. Lending politicians from Pennsylvania, Including State Treasurer Mackay and Mayor Stokley and numerous associates, will this year make Long Branch their headquarters in preference to Cape May. As the Monanouth Park Races will be begun on July 3, it is anticipated that the rush to the watering-place will set in on or about July 1. The walk from the club-house to the grand stand is to be platiked this year, and the tounnissioners have agreed to sprinkle the entire road from the Branch to the track and lay the dust. Trains will also be run regularly from the Long Branch depot to the races every low minutes, thus obviating the necessity of submitting to the exorbitant charges of grasping hackmen.

## A TELLER OF DUNCAN, SHERMAN & CO. A DE-

FAULTER. Duncan, Sherman & Co., at Nassan and Pine-sts., yesterday stated that W. F. Lesley, receiving teller in their banking department, had absconded with \$12,000 in each belonging to the firm. Mr. Lesley has been for many years in the service of the firm, and up to the time of this discovery had the confidence of his employers. He was absent from the office on Monday, as were all the clerks of the bank. He did not appear on were all the clerks of the bank. He did not appear on Tuesday, but it was not until Wednesday, when he still remained away from the bank, that inquiries were made about him. On Thursday an examination showed that cash to the amount named had been taken.

According to the statements of his associates, Lesley was about 35 years of age, was married, and had a child about 3 weeks old. Recently it is stated that he has not heen steady in his habits, and that he became involved with a woman. He received a good salary, and lived comfortably in Twenty-second-st. He is believed to have fled from the city, but citorts will be made to have him arrested.

#### CHARGES AGAINST THE CONTROLLER BEFORE THE MAYOR.

Mayor Wickham, when asked by a reporter of THE TRIBUNE yesterday as to what would be his action upon the report of the Aldermanic Law Committee requesting him to present charges against Controller Gree said that he had not had time to read the report, and did not know what he would do in the matter. A copy of the Committee's report had just been given him and he would examine it carefully.

#### THREATENED RESIGNATION OF NEWARK OFFICIALS.

Several members of the Board of Education and Board of Chosen Frecholders of Newark, N. J., who, it is stated, have been taking contracts for city work, threaten to resign, in consequence of the various Com-mon Council Committees, to whom their bills had been referred, refusing to recommend them to the Common Council for payment. The Committees did so under the Conneil for payment. The Committees did so under the advice of the City Counsel, who has given a written opinion that under the law passed by the Legislature hat Winter, no city officer can take any contract or do any work for the city, the pay for whohe comes out of the City Treasury. This law also stopped payment of a bill of one of the members who helped to pass the law.

## ERIE REAL ESTATE AND STOCK ATTACHED. The property of the Eric Railway Company lying in Luzerne and Sullivan Counties, Penn., was attached yesterday by the Jefferson Car Company of this city upon a judgment rendered May 26 by William M. Prichard, Referse. The property includes all the interest of the Eric Company in the coal lands in those two coun-

pany, and all the interest held by the Eric in the Hillside

fron Mining Company.

The Jefferson Car Company was organized in 1870 for the purpose of furnishing the Eric Railway Company with cars to transport the coal of the Delaware and Hudwith cars to transport the coal of the Delaware and Bud-son Canal Company. Judgment was rendered for non-fulfillment of contract in paying for the use of these cars to the amount of \$173,036 52, for which this attachment is made. The case involved about \$300,000, but, by a mutual agreement between the Companies. a portion of this had been paid to the Jefferson Company until such time as the matter could be adjudicated.

## THE DRAMA.

BOOTH'S THEATER.

With two more performances of "Camille' the dramatic season at Booth's Theater will be ended. Miss Clara Morris gives a powerful and pathetic embodi-ment of Camille, and those who would appreciate the complete spell of her magnetism should see her in this character. Booth's Theater will be closed for the Summer after to-night. Miss Morris will sail for Europe on June 19 in the Celtic.

### OLYMPIC THEATER.

The Siegrist children will come forth at this house next week. They are among the most surprising symnasts of the juvenile class that have been seen. Mr. John Hart and Master Martin are to appear in "The Meddlesome Monkey." Messrs. Fitzgerald and Ryan, comic delineators of Irish character, are to make their first appearance here; while Mr. W. B. Cabill effects his return to this stage, and new melodies are sung by the Hamtown Student Quartette. Africus, the three-legged, is now dancing at the Olympic, and Mr. John Queen and Mr. Wm. West are evineing comic talent and making rare sport in comic sketches. Mr. John Hart and Miss Alice Harrison continue to act and sing in this house, and their sparkling talents are as effective as ever.

LYCEUM THEATER. Farewell performances by Miss Emily Soldene and her Opera Bouffe Company have been given formers went through familiar pieces in their characteristic manner, which is often energetic and sparkling and sometimes indelicate. Miss Soldene and her party sail for England to-day. The Lyceum Theater is now closed.

### PARK THEATER.

Emerson's Minstrels, from California, have given a merry performance and made a pleasant impression at the Park Theater. Their performance takes the usual form, but is of a some what more than usually vigprous character. It deserves more attention than it has vet received from the lovers of mirth.

ROBINSON HALL. "Giroflé-Girotla," with Miss Clara Fisher in the principal part, unintains itself at this Hall. The performance to night will be diversified by new features.

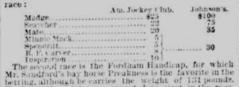

#### SAN FRANCISCO MINSTRELS. Mr. Hunter, treasurer of the San Francisco Minstrels, took his benefit last night; and with additional performances this afterneon and evening the season will be brought to an end. Next week Messrs. Birch and Backus will present their merry men in Boston-their

To the Editor of The Tribune. SIR: I called this morning to say to you that a report of a conversation appearing in The World of this morning as having taken place between a reporter and my self is such a gross misstatement of that conversation that in justice to myself I cannot allow it to go unchallenged. Whatever my sins and errors may be, I have certainly always tried to be a gentleman. This misrepresenting reporter places me as a blackguard. No such language was used by me in reference to you as he quotes. Perhaps I am too sensitive, but this thing annoys me beyond measure. Very sincerely yours, Friday Moraing.

[The ex-Speaker is thoughtful and gentlemanly, as always, but he attaches too much importance to a trifling matter. The interview which has annoyed him was of as little consequence as the droll blunder it was about,—the blunder, it seems, not of the printer, but of a phonographer, who, in the confusion of the speaking in a crowded dining-room, caught the name Reid instead of Weed, and, in writing out his notes, was too dull to perceive the obvious error. But the ex-Speaker may console himself with the fact that his interview about this weighty affair drew out the clever parody herewith reproduced:]

## AN INTERESTING LEGAL QUESTION.

THE MEANING OF THE TERM "OFFICER" ARGUED BEFORE THE COURT OF APPEALS IN SUIT OF THOMAS NELLIGAN AGAINST THE CITY OF NEW-

ALBANY, June 4 .- A question of considerade interest to persons employed in the different departments of the New-York City Government, and in fact to all holding government positions throughout the country, was argued to day in the Court of Appeals. It turned chiefly on the point, "What constitutes a public officer?" and the decision in the case will authoritatively settle that question. Thomas Nelligan was appointed clerk of the Board of Aldermen of the City of New-York, by the clerk of the Common Council, pursuant to a resolution of the Common Coupeil to that effect. He brought suit against the Chy of New-York for a balance of salary due him as such clerk for the last three months of 1871, and recovered indement at the Special and General Terms of the Court of Common Pleas. The case was brought here by the city on appeal. Mr. Dean, who represented the city, argued, to-day,

that the indement of the court below was erroneous, because at the time the plaintiff was appointed the Com-mon Council and heads of Departments were prohibited by an act of the Legislature from creating any new offices; that the plaintiff took an oath of office, and that if the act did not reach the plaintiff it was utterly void of meaning and force.

William - McNamara, counsel for plaintiff, contended

that the city had failed to raise the question properly, by not getting it up in the plending; but, waiving the tech-nicality, he argued that the words at the end of the prohibitory act, "except as provided by acts passed by the Legislature," saved the power to the Common Council. The plaintiff's position as clerk was not an office. He was erely an employe to perform certain specific duties, from a mere employment, most have permanent diration and a fixed tirus, contesting duties and official and legal responsibilities. An office was a duty, a charge, a trust, exercised for a public purpose. It was the functions, the exercises, or duties he performs that makes an officer. The respondent had nothing to do with the public. He was employed to undex books; he had nothe of the attributes of power, and exercised no authority. An officer exercises some political function of the government; he must discharge some independent duties. A public employment that was occasional and transient was not an official Counsel cited authorities in support of this meaning of the term officer, and analyzed the charters of the city to show that the Legislature recognized distinction between cierks and officers in its various sections. If the construction put upon the problisticery act by the apellant was correct, in claiming that all cierks in the (ity Government were officers, he warned them that the large number of additional cierks that were employed by the Comporation Counsel and Controller since 1879 had no legal appointments, and that the increase of salary of the counsel who represented the city in the present case—which was made since 1859, by the head of the Law Department—was also ifferal, because if would come within the provision of the same act. It was unnecessary for the Legislature to pass an act prohibiting the Common Council from creating a new office, because the State Constitution airenty prehibited it. Nor was it consistent with any reasonable theory of government to claim that the Legislature meant to medile with the employes of the Common Council from creating a new office, because the State Constitution airenty prehibited if. Nor was it consistent with any reasonable theory of government to claim that the legislature give the Council the try Government, its streets and moneys, and it was not fair to presume they would withhold the power of the City Government, its streets and moneys, and it was not facto presume they would withhold the power of appointing a mere cierk. If the plaintiff was not ap-pointed to an office, it was not necessary for him to take he outh of office.

The decision of the Court was reserved.

## PARTIAL RESUMPTION OF WORK IN THE

SCHUYLKILL MINES.

for \$20. The start was even. Blanche took the lead, but | QUIET GENERALLY RESTORED-THE MILITARY TO WATCH THE RIOTOUS MINERS-RUMORS OF OUT-

RAGES AT NEW CASTLE. POTISVILLE, Penn., June 4.-All the Col-

lieries that were compelled to suspend work by the raiders resumed this morning, being assured of military protection. The effizens think it will be necessary to retain the troops in their midst for several days to insure a continuance of the work begun. There was an alarm o easioned by the firing of arms in the upper end of Mahanoy City at midnight, and the troops got ready for any emergency. The shots were fired by a mob of raiders. At Shenandoah quiet has prevailed since the arrival of the troops. The excitement continues in the vicinity of St. Clair, 1,000 men and boys from Glen Carbon, Hecks herville, and adjacent towns, being in line again this morning. At Wadesville, the miners at work in Denning & Co.'s mines were driven from their work by the strikers. Adjutant-General Latta arrived here from Philadelphia

last night and was met at the depot by Gen. Sigfried, and during the night the two Generals were closeted together and fully discussed the situation. This morning they went by a special train to Shenandoah and Mahanoy City, to make the necessary arrangements for the cam-LATER. -Five hundred men assembled at New Castle, and after stopping the men at work at Denning's, they and after stopping the men at work at Denning's they fore out the large coal washing machine. A mass meet hig of the workingmen was held this afternoon, and it was resolved to continue the strike, they being guaranteed money, provisions, de, by the Wyoming and Luzerne men, who are to resume work at the 10 per central production.

reduction.

At Mahanoy City to-day, bodies of men were seen lurking in the outskirts of the town. John Welsh, President of the Miners' Union, and John Siney, President of the National Association, arrived at Mahanoy City this evening, accompanied by other preminent members of the Werkingmen's Henevolent Association.

At Mount Carnel an attempt was made to burn J. Hot's hotel. The fire was discovered in time to save the building. Coal oil had been thrown around the premises. There is much uneastness there. Gen. Latta has gone to Harrisburg.

THE VERDICT ON THE HOLYOKE DISASTER.

ALL THE VICTIMS OCCUPANTS OF THE CHURCH GAL-LERIES-CRIMINAL CARELESSNESS IN THEIR CON-

STRUCTION.

SPRINGFIELD, Mass., June 4.-The Coroner's jury on the death of Fabian Moreau, who was taken as a representative victim of the Holyoke disaster, rendered their verdict this evening. The jury find that no blame is to be attached to any person in immediate connection with the fire by which this person and others came to their deaths, but they cannot too strongly condemn the almost criminal carelessness shown in the construction of the galleries and the means of egress therefrom. The testimony shows that the galleries had a scating capacity of 400 persons, and the only means of egress was one stairway about 212 feet wide, leading by a turn to an outer door three feet wide. They find that all the deaths occurring at this fire were of persons scated in the galleries, the means of exit from the main door of the house being ample, with all the doors opening outward. Considering the narrowness of the main floor of the house being ample, with all the doors opening ontward. Considering the narrowness of the stairs as compared with the scatting capacity of the galleries, and the faulty construction of the same as to reaching them from above and below, the jury declare that the parties who built and suffered such a death trap to stand should receive unmeasured censure of the community. The jury further find that the direct cause of the fire with its terrible sacribe of human life is attributable to the use of trimmings of laces, paper, etc., about the altar, and to the fact that the building was sheathed with pline sheathing, instead of being plastered. They strongly deprecate the use of such adornment and the use of such main in places of public resort; and, in conclusion would say to all corporations or persons owning or having in charge public hairs or churches: "This sad calamity admenishes you to look well to the modes of exit from your buildings, for the public will not hold guiltiess the man or men who, through carelessness or neglect, permit such a fearful scene to be repeated."

## MIDNIGHT WEATHER REPORT.

WAR DEPARTMENT.

OPFICE OF THE CHIEF SIGNAL OFFICER.

WASHINGTON, Saturday, June 5, 1875-1 a.m.

Synopsis for the past toendo-four hours.

The barometer has fallen in the upper Mississipp and lower Missouri valleys, with cloudy weather and occasional rain.

Variable winds and cool, cloudy weather now prevail on the lakes and in the Ohio Valley and Tennessee, with rain in the former section; falling barometer, southerly, winds, and clear, warm weather in the Guif States; stationary pressure, higher temperature, clear weather, and southerly winds in the Atlantic States.

The rivers have tisen at Omaha, Leavenworth, St. Paul, Vicksburg, and Louisville, and fallen at Cincinnati, Memphis, and New-Orleans.

Probabilities.

For the Galf States stationary or falling barometer.

Probabilities.

For the Galf States stationary or falling barometer, southerly winds, warmer, partly cloudy weather, and occasional rain near the coast.

For the Allantic States, stationary or falling barometer, south to east winds, warmer and generally clear weather, possibly Rain in Western Fennasjeania and New-Fork.

For the Ohio Valley and Tennessee and the lake region, falling barometer, southers to north-east winds, occasional rain, partly cloudy weather, and stationary temperature. For the Upper Mississippi and Lower Missouri Valleys occasional light rain, failing followed by rising barometer, stationary temperature, and clearing weather. The Lower Missing will probably rise; the Lower Ohio and the Lower Mississippi fail.

SERIOUS RESULT OF AN ALTERCATION. Shortly after 11 o'clock last night an alterention took place at Sixth-ave. and Nineteenth-st. between Philip Smythe, age 23 Nineteenthest, between Philip Smytho, age 23 years, of No. 121 West Seventeenthest, and Michael Donoinee, aged 21 years, of No. 111 West Fifteenthest, during which Donoinee stabbed Smytho twice in the left side, inflicting serious if not fatal wounds. The injured man was taken to the Twentyninth Precinct station-house, and thence to Bellevue Hospital in an ambidance. From what could be ascertained as to the cause of the quarrel it appeared that while the wife of Donoinee was waiking up Sixthave, she was insalted by Smythe, and from this the altercation resulted, and Donoinee was slocked up.

#### WHY SECRETARY DELANO DOES NT LIKE THE CORRESPONDENTS.

From The Washington Star, Jone 3.

Can it be possible that a too faithful report. Can it be possible that a too faithful report of the proceedings of the Indian councils recently held in this city had anything to do with prompting the action of the Secretary of the Indian councils recently held in this city had anything to do with prompting the action of the Secretary of the Interior in excluding all representatives of the press from the council room yesterday! It is to be noped not, but there are grounds nevertheless for a suspicion that an official report may be one thing, and a true and faithful record of what is said and done quite mother. At a meeting held it the Department of the Interior on the 27th ult., for example, the interpreter translated Spottel Tail as saying in effect that his people are stubbern, and that he did not want to present to them the proposition to give up their territory, because he disaded public sentiment there, "the same as the Secretary is afraid of the newspapers here." The reporters for the press who were present at the interview took the "usual guard down, and it was printed accordingly in the papers so represented; yet in a report of the proceedings subsequently prepared for the press by the Department on months whatever was made of this remark, although many persons may think it was pertinent, and gave a legitimate reason for the course the celebrated chieftain had since pursued in the premises.

WASHINGTON, June 4.—Commander Edward Terry has been ordered to command the Conseilation during her practice crules with the midshipmen from Annapolis. Lieut. Commander S. H. Bakor and Lieuts. C. S. Sperry, S. A. Simora, C. Belkhan, E. P. Wood, R. P. Rogers, and J. B. Brurgs, and Chaplain J. R. Matthews have been ordered to the Constellation. Assistant surgeon Frank Anderson is ordered to the Navai Hospital at Chelsen.

The United States steamship Colorate, the last flagship of the North Atlantic station, will, it is said, be stationed at New-York as the receiving ship at that port in place of the Vermont, which vessel will be used for the storage and transportation of coal for the navy.
